

Guelph Wellington Men's Club

CALL FOR VOLUNTEERS

The Board needs to establish a core group of about 8-10 members to respond to emergency situations that may arise with individuals during our regular meetings.

To this end, the club will be hosting a one day, Cardiopulmonary Resuscitation / Automated External Defibrillation (CPR / AED) training session with St. John Ambulance at their offices in Guelph this spring.

Please contact me, or any member of the board, to indicate your interest in being considered for this training.

Gary Thomson, Board Director, House Committee
